1. Permits, Change, Transfer, Renewal, Sale

The only permit condition currently in place is that the permittee must submit all water monitoring data in an electronic format to the Division's web site. This condition is being met.

2. Signs and Markers

The mine permit ID signs are located at the contact points of public access to the permit area.

4.a Hydrologic Balance: Diversions

The diversion along the side of the main access road in the upper reach has had large rocks roll into the diversion. The rocks are completely blocking the diversion and will require a large piece of equipment to remove. Dave Shaver made a note of the blockage and is making arrangements to have the rocks removed.

4.d Hydrologic Balance: Water Monitoring

Third quarter 2008 water monitoring is in the EDI website but has not been uploaded. Water monitoring is current.

8. Noncoal Waste

The noncoal waste items identified on the previous inspection had been collected and disposed of properly.
